

Pi-Cone South Math League

Please note that this league does not use Purchase Orders

Coach,

The dues schedule for the 2010-2011 season of the **Pi-Cone South Math League** is listed below. You need to pay for each team of 10 (or less) for which you want a score posted on the Pi-Cone South (**PCS**) web site and/or on the Maine Association of Math Leagues (**MAML**) web site.

Each high school must pay the minimum of \$375 to compete for one season; this includes the fee for the State Meet. Other teams per school may compete, but keeping their scores is optional; if more than one team's score per school is sent to and posted on either of the league's two web sites (**PCS** or **MAML**), that school will be charged \$60 for each additional team. With this in mind, if a coach wants more than one team to compete, but does not want that team's score posted on a web site, it is that coach's responsibility to keep that team's score from being sent to and posted on either web site.

Please fill in this form and check the appropriate dollar amount below. **Please note that this league does not use Purchase Orders.** Please send your school's check, along with this form, to the league's Treasurer (make checks payable to "Pi-Cone South Math League"):
